Back

An Administrator's dream is perfectly written communication to students and their parents. It's tactful, but to the point, and covers due process. No more worrying about who will translate as the carefully worded communication is in English & Spanish. No more poor copies from the copy machine or waiting until service arrives to fix it. Teachers can print from their classrooms exactly what they need!

The best part is that you now have a site license to make a copy of this CD for every teacher in your building. Each CD has an encoded number to insure that just your staff gets the benefit from this great product. Effective communication is just a click away!
